## MY BRIEF

- Resourceful in technologies; Adept in python, C, C#, Java, C++
- Hands-on Experience with Figma, Adobe XD
- Hands on experience with Unity and Blender
- Strong understanding of object, component based, and functional programming

## WORK EXPERIENCE

### Technical Content Intern - Captain Tesseract

SEPTEMBER 2020 - JUNE 2021

- Developed Python, Unity and Blender course content
- Computer Science Concepts were delivered in a "storified" way - in the fictional universe of Captain Tesseract
- Instructor for Unity and Blender
- Curated course content and delivered to multiple age groups - K12 to graduate.

### Technology Adoption Consultant - Pratiti Technologies

JULY 2021 - APRIL 2022

- Digital Transformation and technology adoption consultant for various industries
  - Consult clients and write technical content on adopting technologies such as
    - Digital Twin
    - OEM Training through VR
    - Product Lifecycle Management
  - Other verticals include
    - IoT
    - Data Analytics

### Other things to know about me

- Been a musician for more than a decade, actively publish music online and used to perform live, pre-pandemic.
- I develop mini-games, looking to use skills gained from my immersive technologies course to make better ones as a passion project
